## Introduction

PCITA is a reputable training organisation, which will maintain an independent and credible position within the pest management industry providing high-quality, industry standard training programmes at competitive prices to existing and potential customers. The Pest Control Training Academy is committed to establish an ongoing strategic planning process by which the needs are to offer high industry standard training. PCITA is associated with registered, experienced training facilitators and qualified registered Assessors of high esteem in all regions.

## Training is key to Professional Pest Management!

These courses are designed to meet the needs of those new to Pest Control and experienced Individuals looking to upgrade their skills.

## PCITA BURSARY BENEFICIARY

Congratulations to Jacklyn Fortuin on successfully completing the first phase of the training as our first bursary student for 2025! We are excited to see how you continue to grow and excel on your journey. Wishing you all the best as you move forward, may the next phases bring even more achievement and opportunities

## PCITA PRACTICAL SUPERVISION

PCITA congratulates the First and Second Practical Groups on completing their practical training and progressing toward obtaining their P-licence. Well done!
